

# Development of the Oman Meteorology Website Following the Results of the Public Consultation

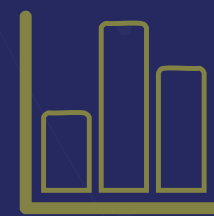

**Following the outcomes of a public consultation aimed at enhancing user experience on the Meteorology website and mobile application, the Civil Aviation Authority has implemented a series of key improvements.**

### Ongoing enhancements include:

Introduction of dark & light modes for more comfortable browsing.

Expansion of weather data coverage to over 700 wilayats and villages across Oman.

Upgraded weather maps featuring high-resolution radar and satellite imagery.

Improved forecast accuracy with faster and more frequent data updates.

Addition of new bulletins and detailed maps covering wind, rainfall, and humidity.

- The Civil Aviation Authority emphasizes that the upgraded Meteorology platform is more than just a weather application it is a comprehensive national system providing official forecasts, reports, and warnings, all dedicated to protecting lives and property.
