

## ATC Job Opportunity

The Civil Aviation Authority (CAA) of the Sultanate of Oman are currently recruiting experienced and highly motivated Area Air Traffic Control Officers (ATCOs) to be a part of a great team in Muscat ACC. Those selected will be responsible for directing the movement of aircraft to provide a safe, orderly and expeditious air traffic service.

## Key accountabilities

- ✈ Ensure the provision of Air traffic control service, flight information service and alerting service to aircraft operating in Muscat FIR.
- ✈ Maintain all the required knowledge and understanding of the equipment and systems used for the provision of air traffic services in Muscat FIR.
- ✈ Distribute as required meteorological information necessary for the safe and orderly handling of traffic.
- ✈ Report failures, abnormal occurrences or any other conditions likely considered a safety hazard.
- ✈ Provide operational feedback to management on proposed airspace procedure and system changes.
- ✈ Practice professionalism and politeness to all users of services provided by the CAA and to other personnel in Air Traffic Services.
- ✈ Adapts to change by maintaining effectiveness when experiencing changes in work responsibilities or environment.

## Specific requirements

- ✈ A validated area Rating with a minimum of 7 years total experience exercising this rating. Having an approach rating is an advantage.
- ✈ Valid ICAO English Level 5 or above.
- ✈ A valid ATC Medical.
- ✈ In addition to the above, experience within a multi-cultural environment in the Middle East is preferred.

## Assessments of prior competency procedure will be as follow:

- ✈ Interview (online interview).
- ✈ Knowledge Verification Test.
- ✈ Simulation Practical Assessment.

**Note:** Knowledge Verification Test and Simulation Practical Assessment will take place in CAA Muscat.
