AMC1 FCL.935 Assessment of competence.

GENERAL

- (a) The format and application form for the assessment of competence are determined by the CAA
- (b) When an aircraft is used for the assessment, it should meet the requirements for training aircraft
- (c) If an aircraft is used for the test or check, the examiner acts as the PIC, except in circumstances agreed upon by the examiner when another instructor is designated as PIC for the flight.
- (d) During the assessment of competence, the applicant occupies the seat normally occupied by the instructor (instructors' seat if in an FSTD, or pilot seat if in an aircraft), except in the case of balloons. The examiner, another instructor or, for MPA in an FFS, a real crew member under instruction, functions as the 'student'. The applicant is required to explain the relevant exercises and to demonstrate their conduct to the 'student', where appropriate. Thereafter, the 'student' executes the same maneuvers (if the 'student' is the examiner or another instructor, this can include typical mistakes of inexperienced students). The applicant is expected to correct mistakes orally or, if necessary, by intervening physically.
- (e) The assessment of competence should also include additional demonstration exercises, as decided by the examiner and agreed upon with the applicant before the assessment. These additional exercises should be related to the training requirements for the applicable instructor certificate.
- (f) All relevant exercises should be completed within a period of 6 months. However, all exercises should, where possible, be completed on the same day. In principle, failure in any exercise requires a retest covering all exercises, with the exception of those that may be retaken separately. The examiner may terminate the assessment at any stage if they consider that a retest is required.

AMC3 FCL.935 Assessment of competence.

- (a) Content of the assessment for the FI
- (b) Section 1, the oral theoretical knowledge examination part of the assessment of competence, is for all FI and is subdivided into two parts:
 - (1) The applicant is required to give a lecture under test conditions to other 'student(s)', one of whom will be the examiner. The test lecture is to be selected from items of section 1. The amount of time for preparation of the test lecture is agreed upon beforehand with the examiner. Appropriate literature may be used by the applicant. The test lecture should not exceed 45 minutes;
 - (2) The applicant is tested orally by an examiner for knowledge of items of section 1 and the 'core instructor competencies: teaching and learning' content given in the instructor courses.
- (c) Sections 2, 3 and 5 are for all Fls. These sections comprise exercises to demonstrate the ability to be an FI (for example instructor demonstration exercises) chosen by the examiner from the flight syllabus of the FI training courses. The applicant is required to demonstrate FI abilities, including briefing, flight instruction and de-briefing.
- (d) Section 4 comprises additional instructor demonstration exercises for an FI for ME aircraft. This section, if applicable, is done in an ME aircraft, or an FFS or FNPT II simulating an ME aircraft. This section is completed in addition to sections 2, 3 and 5.

Civil Aviation Authority - Sultanate of Oman Flight Safety Department - Personnel Licensing Section Instructor (FI, CRI & IRI) Assessment of Competence Report

Instructor Certificate is Valid for 3 years

Appendix A - AMC1 FCL.920 Instructor competencies and assessment.

С	Competencies	Performance	Knowledge				
1	Prepare resources	- Ensures adequate facilities; - Prepares briefing material; - Manages available tools; - Plans training within the training envelope of the training platform, as determined by the ATO	- Understand objectives; - Available tools; - Competency-based training methods; - Understands the training envelope of the training platform, as determined by the ATO				
2	Create a climate conducive to learning	- Establishes credentials, role model's appropriate behavior; - Clarifies roles; - States objectives; - Ascertains and supports student pilot's needs	- Barriers to learning; - Earning styles.				
3	Present knowledge	- Communicates clearly; - Creates and sustains realism; - Looks for training opportunities.	- Teaching methods				
4	Integrate TEM and CRM	Makes TEM and CRM links with technical training; For airplanes: makes upset prevention links with technical training.	- TEM and CRM; - Causes and countermeasures against undesired aircraft				
5	Manage time to achieve training objectives	- Allocates the appropriate time to achieve competency objective.	- Syllabus time allocation				
6	Facilitate learning	- Encourages trainee participation; - Shows motivating, patient, confident and assertive manner; - Conducts one-to-one coaching; - Encourages mutual support.	- Facilitation; - How to give constructive feedback - How to encourage trainees to ask -questions and seek				
7	Assesses trainee performance	Assesses and encourages trainee self-assessment of performance against competency standards; Makes assessment decision and provides clear feedback; Observes CRM behavior.	- Observation techniques; - Methods for recording observations				
8	Monitor and review progress	- Compares individual outcomes to defined objectives; - Identifies individual differences in learning rates; - Applies appropriate corrective action.	Learning styles; Strategies for training adaptation to meet individual needs				
9	Evaluate training sessions	- Elicits feedback from student pilots; - Tracks training session processes against competence criteria; - Keeps appropriate records.	- Competency unit and associated elements; - Performance criteria Phase training objectives;				
10	Report outcome	- Reports accurately using only observed actions and events.	- Individual versus systemic weaknesses
